EDUCATION

DOĞUŞ UNIVERSITY

September 2023 - Present

Software Engineering - 3rd Year Student

SKILLS & COMPETENCIES

- C#
- .NET CORE
- JAVA
- MSSQL
- DOCKER
- INGILIZCE
- GIT GITHUB

PROJECTS

To Do App Project

- I developed a simple backend to-do list application using Java. I implemented CRUD operations and RESTful APIs for task management.
- Technologies: Java, Spring Boot, Docker, Git, GitHub

Uni2Club Project - University Club & Event

Management System (Team Project - 3 Members)

- I contributed to the development of a full-fledged web application for managing university clubs and events, including event creation, announcements, and surveys.
- Technologies: C#, .NET, TypeScript, JavaScript, HTML/CSS, REST API, Docker, Git/GitHub

Staffly HR Management System (Team Project - 3 Members)

- Contributed to the development of a full-stack HR management system including employee management, task tracking, and role-based access control.
- Technologies: Java, Spring Boot, React, Docker, Microsoft SQL Server

PROFILE

I am a third-year Software Engineering student at Doğuş University. I gained internship experience using C#. Currently, I am focused on improving my Java and backend development skills to develop efficient and scalable applications. I am eager to learn new technologies and contribute to real-world projects.

PROJECTS

- Uni2Clup Project
- To Do App Project
- Staffly HR Management System

INTERNSHIP EXPERIENCE

Katılım Emeklilik ve Hayat A.Ş. -

September 2024

C# Developer Intern

- I developed small-scale projects to learn the fundamentals of object-oriented programming with C#.
